Nicaragua is a small country in Central America

- Main cities: Managua, León, Granada, Chinandega, Estelí, Matagalpa,
- Population: 6.3 million (2016)
- Gross domestic product: 13.0 billion USD (2016)
- GDP per capita: 2,120.3 USD (2016)
- Construction is growing up at 9% in 2017*

ACI Certification Programs are very important for improving the concrete QC

No any ACI Certification had been carried out in Nicaragua by 2014

Our target is that all the concrete technicians to be certificated, and also the inspectors

Fall 2017 Anaheim
The Concrete Convention
and Exposition

With ACI support, we can offer the ACI Certification Programs by ourselves
